✓ Installed in minutes!

Self contained alarm requiring no wiring

SCA001 | Screamer with Break Glass

SCA002 | Push Button

Product Specifications

PRODUCT CODE	DESCRIPTION
SCA001	Screamer - with break glass unit
SCA002	Screamer - with push button
SCA003	Spare break glass (pack of 5)
SC070	Test key (pack of 10)

Fire Accessories

Alarms

Smoke / CO Alarms

✔ Quick, easy installation
✔ Alarm sound output - 85dB (min) at 3 metres
✔ Interconnectable models - up to 12 alarms may be connected

Loud and quick and easy to install

SA100B
SA100C
SA100S
SA100L
SA105C
HA103C
SA100SL
SA105SLC
CMA204

Ionisation Smoke Alarms
Highly sensitive - respond to all standard fires, giving a quick response to fast flaming fires.

Optical Smoke Alarms
Highly sensitive - respond to all standard fires. Senses smoke using light scatter principle, giving a quick response to visible smouldering fires.

Heat Alarm
Uses a fixed temperature fast response thermistor type sensor, operating in range 54°C to 62°C. Ideal for kitchens and garages where the use of optical or ionisation alarms would lead to unwanted nuisance alarms.

Carbon Monoxide Alarm
Proven sensor, based on electrochemical technology - checks CO concentration every 50 seconds.

Product Specifications

PRODUCT CODE	DESCRIPTION	BATTERY (SUPPLIED)
SA100B	Ionisation - standard unit*	9V Alkaline
SA100C	Ionisation - interconnectable*	9V Alkaline
SA100S	Ionisation - with 'HUSH' feature*	9V Alkaline
SA100L	Ionisation - with escape light*	9V Alkaline
SA105C	Optical - interconnectable*	9V Alkaline
HA103C	Heat alarm - interconnectable*	9V Alkaline
SA100SL	Ionisation - standard unit *	Lithium - 10 year life
SA105SLC	Optical - interconnectable*	Lithium - 10 year life
CMA204	Carbon monoxide alarm**	9V Alkaline
